Table of Contents

Introduction

ACTIVE Content Manager 18.3 contains enhancements and new features.

ACTIVE Content Manager:

- Security updates.

This release also contains fixes to customer-reported issues as well as minor improvements. These Release Notes outline the details of the new enhancements and the minor improvements addressed in this version.

Please check the ACTIVE Customer Portal at http://CustomerPortal.ACTIVEnetwork.com for other updates and documentation.

New Features and Enhancements

- *Security update*: The ability to create "Attachment" questions on the **Survey** and **Application Form** page types has been removed (4603).
- *Security update*: The ability to perform anonymous uploads to the syndicated calendar has been removed (4602).
  - **Note**: Anonymous users are still able to submit an event; however, they can't upload a file for the event.
- *Security update*: Users are no longer permitted to modify the allowed file extensions on the **Syndicate Calendar** edit page. A default list of extensions is now used instead: .doc; .docx; .jpg; .jpeg; .pdf; .png; .txt; .xls; .xlsx. (4600).

Supported Database Platforms

ACM 18.3 has been tested with SQL Server databases. See the *ACM 18.3 Hardware and Software Requirements* document for more information.

Bug Fixes

- Forgot Password emails now take the user to the login page. Previously, the user was taken to the Change Pssword page for sites that use site groups (4654).
