## Suppress Mandatory CVV2 Collection for Non-Canadian VISA Transactions

According to VISA security requirements, all Canadian VISA credit card transactions for eCommerce and telephone orders are now required to collect the CVV2 number.

Previously, a CVV entry field was displayed as a required field on the checkout page for all VISA credit card transactions, regardless of whether it was in Canadian Dollars (CAD) or another currency, or whether it was using a new or saved VISA card.

Now, in the AUI, when you or your staff register an athlete in the Front Desk Registration (FDR) workflow, transfer a registration or purchase add-ons using a VISA card, if the transaction is not in CAD, then the CVV entry field is hidden and your customers are not required to provide the CVV2 number.

The following example shows a VISA transaction in British Pounds (GBP) where the CVV field is not displayed:

**Order summary**

Items	Price	Quantity	Sub total
lesson bcssa 917 registration Athlete: Cindy R Billing806 Session: SessionISA - STA	GBP 100.00	1	GBP 100.00
